Patent #3838389

Looking for the best jet ski or small boat lift? You've found the BEST! The patented Up-N-Over[®] from Boat Lift U.S.[®] is the premier PWC lift. This lift offers many standard features not available anywhere else.

The Up-N-Over[®] is built with all stainless steel and aluminum construction and features both a custom-designed and manufactured heavy-duty mast, as well as custom made aluminum bunks. The sleek white powder coat finish adds to the appearance of your dock and allows for easy cleaning. We also added refinements such as custom made end-caps for all banks, cradle arms, and pipes.

Most important of all, the Up-N-Over[®] PWC lifts are ready to do everything you require. You can raise, lower, and rotate 180° and then lock into place for service. These lifts offer an impressive combination of performance, reliability, ease of operation and installation, and the type of refinement only found in a professionally engineered product.

Boat Lift U.S.[®] has made a total commitment to building superior boat lifts starting with our Up-N-Over[®] PWC lifts all the way up to the 54,000 lb. capacity models, offering features that others only dream about.

Parts & Accessories

- Remote Controls
- Walk Boards
- Electrical Cable
- Service Platforms
- Aluminum Banks
- Bank Bumpers
- Gear Plate Covers
- Aluminum Ladders
- Stainless Cable
- Switches
- Stainless Motors from 3/4 hp to 1-1/2 hp
- Painted Motors from 3/4 hp to 1 hp

Heavy-Duty Bearing Housing

Cable Winders

- Recessed grease fitting

Sheave Housing

- Easily adaptable
- Rugged, one-piece design
- Extra heavy walls for axle bolt

Ladders

- 5-Step design
- Retractable
- Two hinge points

Heavy-Duty Cable Lock

Our heavy-duty cable lock incorporates an exclusive design, top features include:

- Easily adjustable system
- Double locking wedge design
- Heavy-duty construction
- Machined exterior and interior

No bolts need to be removed in order to make changes in length.

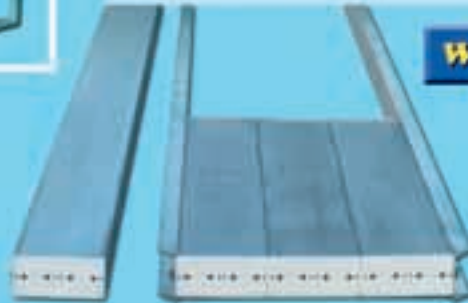

Piling Mount Brackets

- All aluminum
- Easy installation
- UV protected PVC edges
- Stainless steel hardware
- Easily adjustable

Walkboards & Service Platform

- Heavy-duty design
- All aluminum construction
- Stainless steel hardware
- Molded endcaps

Stainless and Painted Motors

- Electra Gear
- CE Certified
- Totally Enclosed Case

Plate Gear Drive

- Enclosed bronze worm
- Heavy-duty cast pulleys
- Stainless Steel or Painted motors
- Galvanized or Aluminum backplate

Gearbox™

- Gearbox™
- No Chains!
- Aluminum Construction!
- Stainless Motor!
- Attractive Fit and Finish!

Up-N-OVER PWC LIFTS

Patent #3838389

SIZE	STANDARD FEATURES
1,500# CAPACITY	Super heavy-duty mast, painted steel motor, aluminum bunks, guide post kit, momentary switch & GFCI. Seven ft. range. Mounts to 10" piling 42" above the deck.

Brochure date March 2014

CRADLE ENDS WITH SOLID EXTRUDED SHEAVE ENCLOSURE	NO WELD CONSTRUCTION	GALVANIZED BACKPLATES AVAILABLE ALUMINUM GEARBOXES AVAILABLE
Not welded onto or into cradle I-beam.	Does not weaken structural integrity of aluminum.	Prevents corrosion.
Stainless Cases	Protects drive shaft and keeps cables winding without overlapping.	No wood, no floating, no carpet to replace.
